

Is Homework Necessary

Firstly

I believe that homework is not necessary. Because we know it well and were just doing the same thing over and over again. Like when I get home for example I have to walk my dog, feed my dog take a shower change in to different cloths and then do my homework

Like that's half of my day I barely have time to play when I get home or go outside and hang out with my friends.

Secondly I have my lunch and get down to my homework but it takes me a little bit longer than an hour at least an hour and 15 minutes and it takes up time of my day in fact I don't get time to play with my dog

Thirdly I have to go shopping with my dad and sister. And that takes an hour but once I get home then its dinner time and then bed.

So that's why I think that homework is not necessary BYE!!!
